

Resolution F22-002

A Resolution to Institute Safer Crosswalks and Upgrade Pre-Existing Ones

- Whereas,** Tennessee Tech is a pedestrian campus with some of the most heavily trafficked roads within the City of Cookeville, and,
- Whereas,** the safety of students is the University and SGA's top priority and having dangerous conditions is a concern, and,
- Whereas,** several cars around our Cookeville ignore the existing signs and drive at reckless speeds near the University campus, and,
- Whereas,** upgrading regular crosswalk signs to have flashing lights and adding more signs where there are absences, notably at the intersection of Seventh Street and Mahler Avenue, and,
- Whereas,** along with the previously stated location upgrading regular crosswalk signs to have flashing lights and adding more signs where there are absences, to address crosswalks connecting to North Dixie Avenue, and,
- Whereas,** the simple addition of new crosswalk signs and upgrading the old ones will be an effective way to improve student-pedestrian safety, and,

BE IT THEREFORE RESOLVED, on this 3rd day of October 2022, the Student Government Association expresses a request to the City of Cookeville to provide these pedestrian protections to increase the safety of a large population within the city.
