**Reorganization of the Department of Music and Art – Informational Only**

In a memorandum dated October 17, 2011, the following was presented as an informational item only.

The College of Education formally requests authorization to reorganize the Department of Music and Art into two separate departments effective AY 2012-2013. Support for reorganizing into distinct departments is quite extensive:

- The Music and Art Faculty, along with the members of the College of Education Leadership Council, have voted unanimously to request that separate departments of Art and Music be formed for the mutual benefit of both academic programs.
- The Appalachian Center for Craft fully endorses this reorganization.
- Accrediting agencies NASAD and NASM have noted the shortcomings of the current arrangement of a joint Department of Music and Art.
- Discussions within the College and with Academic Affairs have now progressed to the point where a cost-effective plan has been developed.
- Professor Arthur LaBar has announced his intention to retire as chair of the Department of Music and Art effective August 1, 2012. Therefore, the search for a new department chair must

be conducted within the current academic year. A search for a chair of both Music and Art has always been challenging because of the very limited pool of candidates with expertise in both academic areas.

The departmental faculty, the department chair, the Director of the Appalachian Center for Craft, the Associate Dean, and the Interim Dean of the College of Education all support the formation of the Department of Art and the Department of Music. In addition, it is advocated that a Chair of Art/Executive Director of the Appalachian Center for Craft and a separate Director at the Craft Center be appointed to better achieve the goals of the newly formed department.

This reorganization plan promises a strong focus upon developing a new graphic design program in the Art Department at the main campus and additional recruitment efforts at both the main campus and the Craft Center. The anticipated start-up costs for this reorganization are primarily contained within the College. A five-year "Action Plan" has been created for the proposed Department of Art, and it includes the development of a Graphic Design program which would be implemented in AY 2014-2015.
