## BEYONCE WASN'T BUILT IN A DAY: SISTERHOOD AS A TOOL FOR LEADERSHIP

Being a woman in leadership is not always the easiest task, but it's possible with the help of our sister circles. This engaging workshop will use pop culture references and real-life examples on how women can lead, maintain our sister circles and slay while doing so! During this session, participants will assess their sisterhood and discuss the steps of building an essential sisterhood for success.
