

Full-Time-Equivalent Faculty

Fall 2000-2006

This report contains information about full-time-equivalent instructional faculty at Tennessee Tech during Fall 2000 through Fall 2006. This information is about those instructional personnel who taught a course during a Fall semester.

Faculty Type Percentage

For the period of Fall 2000 through Fall 2006, as shown in Table 1, **the Regular/Administrative* percentage of the total full-time-equivalent faculty decreased from 84% to 74%, while the Adjunct percentage increased from 14% to 25%**. The Graduate Assistant percentage remained at approximately 1% to 2%.

Faculty Type

Table 2 shows that **the number of full-time-equivalent Regular/Administrative Faculty remained in the range of 336 to 355, while Adjunct Faculty increased from nearly 60 to nearly 120**. The number of Graduate Assistants remained between 5 and 10.

FTE Faculty By Unit

Tables 3, 4, and 5 show the number of FTE faculty by academic unit. Regular/Administrative Faculty are displayed in Table 3, which indicates that the number of these faculty in most units remained generally stable, with some fluctuation. Notable changes occurred in several units. There was a decrease of 9 Regular/Administrative faculty members in the College of Arts and Sciences in Fall 2003, followed by a gradual increase in the succeeding three years. In the College of Education, there was a decrease from 84 to 73 over the seven-year period. In the College of Engineering, there was a decrease of 5 and then an increase of 5 during the three-year period of 2003 through 2005. Faculty in Independent Programs decreased from 12 to 6 over the seven-year period.

As shown in Table 4, Adjunct Faculty increased from 22 to 64 in the College of Education and from 14 to 35 in the College of Arts and Sciences. Other units registered moderate fluctuations in Adjunct Faculty.

Table 5 shows the total number of FTE Faculty by academic unit, indicating increases of more than 25 in Education and approximately 25 in Arts and Sciences. FTE Faculty in Engineering increased by approximately 6 during this period.

Detailed information about FTE Faculty by unit and department is displayed in Tables 6 through 9.

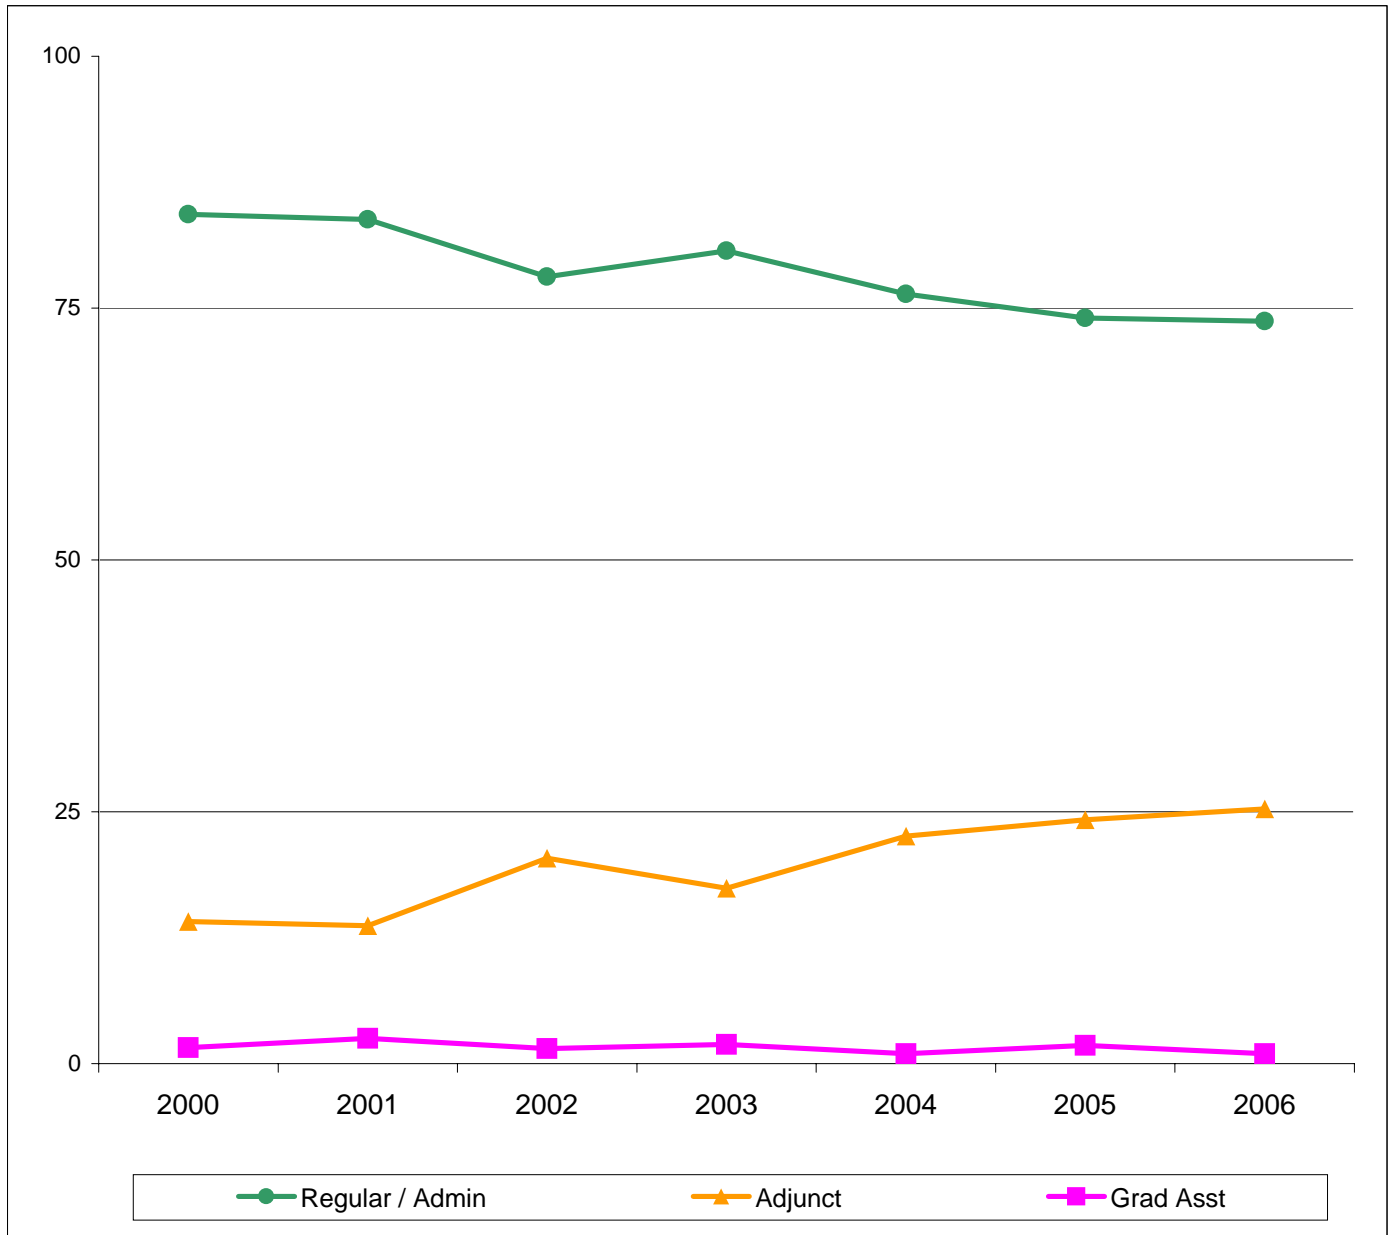

Information about increases in enrollment and instructional activity over this seven-year period are available in other *IR Series* documents and *TECH TRENDS* information in the web site of the Office of Institutional Research.

* *Regular/Administrative Faculty* is defined as personnel who taught a course and who have academic rank.

1. Full-Time-Equivalent Faculty Percentage By Type

Fall 2000-2006
