

2009 ASHRAE Scholarship Winners

Mallory Johnston

Mallory M. Johnston, a Tennessee Tech University mechanical engineering student from Bethpage, Tenn., recently received two awards from the American Society of Heating, Refrigerating and Air-Conditioning Engineers.

Johnston, a Westmoreland High School graduate, accepted the \$3,000 Donald E. Nichols Scholarship for the 2009-2010 academic year and the \$1,000 Nashville branch scholarship.

The Nichols scholarship recognizes outstanding scholastic and leadership abilities, character, potential service to the profession and financial need. Recipients must be in a curriculum approved by the Accreditation Board for Engineering and Technology and other agencies recognized by ASHRAE. The Nashville chapter awards two \$1,000 scholarships each year. The program is designed to encourage and assist in heating, ventilating, air conditioning and refrigeration through scholarships.

Richard Russell, a Tennessee Tech University senior mechanical engineering major from Chattanooga, recently received a scholarship from the American Society of Heating, Refrigerating and Air Conditioning Engineers.

Russell was awarded the \$1,000 Nashville ASHRAE Branch Scholarship.

The ASHRAE Scholarship is awarded to undergraduate and graduate students in engineering and engineering technology. Their curriculum has to be approved by the Accreditation Board for Engineering and Technology and other agencies recognized by ASHRAE. The Nashville chapter awards two \$1,000 scholarships each year. The program is designed to encourage and assist in heating, ventilating, air conditioning and refrigeration through scholarships.
