

STAPLES Advantage

Ancient history.

Small orders are a thing of the past.

To help increase efficiency and reduce small orders, Tennessee Tech has implemented a minimum order of \$50 on all StaplesLink.com® purchases. Not only will this change help to reduce delivery expenses, but it will also help the environment through conservation of fuel and delivery boxes.

Try making one group order per week, anticipating your future needs and ordering frequently used supplies in bulk — these small changes will make a big difference.

- **Save time** by placing one order versus many orders
- **Save money** by reducing delivery costs
- **Help conserve natural resources** like gas and trees
- **Help avoid fuel surcharges** so we can continue to offer FREE delivery

Start ordering smarter at StaplesLink.com.

What do T. rex and small orders have in common? They're extinct.
