

CELLULAR SERVICE PLANS & OPTIONS

The University's current cellular contract includes nationwide voice plans. **Each plan includes unlimited nights and weekends and unlimited in-network calling.** The voice plans listed below reflect a 19% discount, and data plans for smart devices reflect a 20% discount. The overage rate is \$0.25 per minute on all of our plans, and overage is applicable once the total anytime minutes are exceeded. Monthly service plans are billed a month in advance with partial months being pro-rated. Additional fees (911 surcharge, USF and federal regulatory fees) are included on all service plans.

Service is established for a minimum of one year, and all contracts are automatically renewed each year, unless a written request is received from the department to discontinue service at least one week prior to the end of the contract. For specific dates of the current contract, please contact Telecommunications.

For plans that need to be modified, or for questions about a bill, users should contact Ms. Tammy Cobb at 372-3800. It is the responsibility of the authorizing department to notify Telecommunications when an employee, who has a University cell phone, is no longer employed or has retired. At that time, the cell phone may be transferred to another employee or the contract may be terminated and the equipment returned to Telecommunications. If the device is transferred to another employee, a new Cellular Agreement Form must be completed and forwarded to the Telecommunications Office for processing. Telecommunications will notify Human Resources of all new assignments; however, it is the department's responsibility to notify Human Resources that the employee has turned in all cellular devices or equipment, which they were previously assigned.

AMERICA'S CHOICE NATIONWIDE PLANS (rates listed below are the net amt. after the discount)

Monthly Rate Plans (19% disc)	\$32.39	\$48.59	\$64.79	\$80.99
