TABLE OF CONTENTS – LINKS TO EACH SECTION

• Cover page
• Table of contents
• Welcome / Overview
  o Dual Enrollment vs Joint Enrollment
  o Deadlines
    ▪ New student
    ▪ Returning student
• Forms of payment
• Need to know / handy information
  o You can lose the TN grant
  o Consortium agreement
  o HOPE funds not affected
  o Multiple applications
  o Update app form
  o Selective service
  o FERPA (Federal Student Privacy Laws)
• DE Application - step-by-step (with active links)
  o Step #1: Review handbook
  o Step #2: Register for courses
  o Step #3: Apply to Tech
  o Step #4: Intent to attend
  o Step #5: Health form
  o Step #6: Ilearn (Tech’s online class platform)
• Payment options
  o TSAC grant
  o Tennessee state discount
Welcome to Tennessee Tech University’s Dual Enrollment program! High school students who meet the eligibility requirements can jump-start their college career by taking select college-level courses at a lower or free cost, helping them make a smooth transition to Tennessee Tech University or other colleges to complete their degree.

This handbook covers the required elements of the Dual Enrollment process at Tennessee Tech University from start to finish. It is highly recommended both the student and parent review the document in full prior to applying, sending forms, etc., so that the student can complete all requirements and receive their college credit. Skipping parts may result in credit not being awarded and grant deadlines (payment for the course) may be missed.

Please note: The reason for the name of “Dual Enrollment” is that while the student may fully complete the course at the high school, it is still possible they may NOT receive credit unless all requirements for admission, registration and payment through Tennessee Tech University are completed. They must be “dual enrolled” in both their high school AND Tennessee Tech University course(s) to receive college credit.

DUAL ENROLLMENT (DE) VS. JOINT ENROLLMENT (JE)

Dual Enrollment (DE) is different from Joint Enrollment (JE) at Tennessee Tech University in that:

- For DE, the student receives instruction in the college level class at their high school from one of their teachers or online from Tennessee Tech University staff, not on campus at Tennessee Tech.
- The cost per credit hour cost is lower for DE than JE.
  - Dual Enrollment cost per credit hour at Tech is matched to the TSAC grant rate of $179.55 /credit hour.
  - Joint Enrollment cost per credit hour is the same rate as for incoming Tennessee Tech University Freshmen students - approx. $438/credit hour.
- DE courses are specific courses as determined by the student’s high school teaching curriculum AND count on their high school transcript (at the discretion of the high school administrator). JE courses are non-prerequisite courses that are offered at Tennessee Tech University each semester (i.e. a wider selection of courses) but do not count on their high school credit or high school transcript.

*PLEASE NOTE THAT ALL STEPS FOR ADMISSION, REGISTRATION AND PAYMENT PROCESSES MUST BE COMPLETED TO RECEIVE COLLEGE CREDIT.

DEADLINES:

For a student to be successfully enrolled in the Dual Enrollment (DE) program and receive credit, the student and parent will need to have all requirements completed by the deadlines below. While the student may complete the class at the high school, failure to meet the deadlines listed below will result in no college credit awarded.

- NEW STUDENT - a student who has never been enrolled in the dual enrollment program through Tennessee Tech or a student who was not enrolled in the dual enrollment program at Tennessee Tech during the prior semester.
• **RETURNING STUDENT** – a student who was enrolled in dual enrollment classes the *prior* semester at Tennessee Tech.

**NEW STUDENT:**
• Apply to Tennessee Tech for the specific DE semester within **10 business days** of the high school courses beginning.
• Admission documents must be received by Tennessee Tech within **20 business days** of the high school courses beginning – this includes:
  o Student is listed on the roster(s) of all courses they are taking at the high school
  o Current high school transcript received direct from the high school counselor
  o “Intent to Attend” form completed by the **parent AND student**. (Docusign online)
  o Required health form completed by the **parent**. (Docusign online)
  o The student has set up their Tech Express student portal at [express.tntech.edu](http://express.tntech.edu)
    ▪ **Note** – you must be admitted and have your Tech ID / T# and Tech username to set up Tech Express.
  o The student has requested all other prior college transcripts (from dual enrollment or other college courses) to be sent to Tennessee Tech.
  o Complete the TSAC dual enrollment grant yearly unless the student/parent will be paying out of pocket
  o Grant application deadline dates:
    • September 15 – Fall Semester
    • February 1 – Spring Semester
    • May 15 – Summer Semester

**RETURNING STUDENT:**
• ‘Intent to Attend’ form completed by the **parent AND student** within 10 business days of the high school courses beginning.
• Student to request any other college transcripts (from prior dual enrollment) to be sent to Tennessee Tech **within 10 business days** of the high school courses beginning:
  o The student has requested all other prior college transcripts (from dual enrollment or other college courses) to be sent to Tennessee Tech
  o Complete the TSAC dual enrollment grant yearly unless the student/parent will be paying out of pocket
  o Grant application deadline dates:
    • September 15 – Fall Semester
    • February 1 – Spring Semester
    • May 15 – Summer Semester

**FORMS OF PAYMENT:**
• Pay out of pocket, in full, for the class(es), through the student’s Tech Express account or in person at the Tennessee Tech University Bursar / Business Office. 931-372-3311 or [bursar@tntech.edu](mailto:bursar@tntech.edu) for information.
• The TSAC Dual Enrollment Grant, provided by the State of Tennessee and **available for all Tennessee residents, regardless of income level.** The TSAC grant covers the first five (5) courses taken, meaning that you can get five (5) college credit courses completely for free! *Note - For the sixth through tenth courses, students can choose to draw TSAC funds (up to $100/credit hour) without lessening
their HOPE scholarship amounts. This is done by completing the TSAC grant application each year. The TSAC grant application link is also on the Dual Enrollment Checklist (see below).

- **Please complete the grant A.S.A.P!** Delays from missing transcripts or other forms can cause a delay in payment, resulting in parent/student paying for the course out-of-pocket. Once the TSAC application deadline passes, the parent/student will have to pay any balance for the class.

- If a student has used the grant for DE at another school, they must update the TSAC grant to name Tennessee Tech University as the fund’s recipient OR...
  - Students can take DE at two separate schools at the same time, but a Consortium Agreement must be submitted to Tennessee Tech University and the other school providing DE.
  - Students without TSAC grant funding will pay the balance through their Tech Express account at express.tntech.edu

**NEED TO KNOW / IMPORTANT INFORMATION:**

- **A STUDENT CAN PERMANENTLY LOSE THEIR TSAC (DE) GRANT!!!** – A student must earn a minimum 2.00 dual enrollment GPA to remain eligible for the grant. If a student fails to earn a minimum 2.00 dual enrollment GPA, then the student forfeits remaining grant eligibility. See DE Grant Information at the State of TN site [HERE](link). This is imperative to keep this in mind when taking DE courses during each semester, especially if a student plans on dropping a course before completion. If the student loses the grant and continues in the DE courses, the student/parent will have to pay out-of-pocket.

- **CONSORTIUM AGREEMENT** – When a student takes DE courses at different colleges during the same semester and wishes to use the TSAC grant to pay for the courses, a Consortium Agreement is needed. When the parent/student filled out the TSAC grant, whichever college they selected as the ‘home’ institution will determine how the Consortium Agreement and payment for the courses is processed. Tennessee Tech University will reach out to the parent/student regarding any consortium agreements via email close to the start of or just after the semester begins.

  - Scenario ‘A’: A student takes DE courses at Tennessee Tech University and Vol State during the same semester. If the student/parent put Tennessee Tech University as the “home” institution when filling out the TSAC grant, Tennessee Tech University is authorized to pull the funds for the courses at Tennessee Tech University. Vol State could NOT pull the funds for the grant to pay for the student’s courses at Vol State. However, the parent/student could complete a Consortium Agreement with Tennessee Tech University, pay out-of-pocket for the Vol State courses (the “host” institution), and then be reimbursed for the courses by Tennessee Tech University pulling additional TSAC funds.

  - Scenario ‘B’: A parent/student put a college other than Tennessee Tech University (from a prior semester of DE) as the “home” institution for the grant. Student is taking DE at Tennessee Tech University for a current semester and no other courses at another institution during the same semester. Until the parent/student log back into the TSAC portal and make Tennessee Tech University the “home” institution, our Financial Aid cannot pull the funds to pay for the courses.
• **DE GRANT USAGE DOES NOT DECREASE HOPE SCHOLARSHIP AMOUNTS!** Prior to 2022, after the 4th DE course completed by a student, any subsequent DE courses taken would decrease HOPE funds. Since then, the TN Legislature ruled that after the first five (5) free courses, the funds used would NOT affect a student’s HOPE funds.

• **ADMITTED AS AN Incoming FRESHMEN TO TENNESSEE TECH UNIVERSITY (FOLLOWING HIGH SCHOOL GRADUATION) BUT TAKING DE COURSES WHILE IN HIGH SCHOOL** – This is a common occurrence with high school Seniors. If, at the beginning of your Senior year in high school, you apply to Tennessee Tech University as an incoming freshman (i.e. for a semester after you graduate high school), you are admitted, **AND YOU ALSO WANT TO TAKE DE COURSES AT TENNESSEE TECH UNIVERSITY PRIOR TO GRADUATING**, you will still need to apply to Tennessee Tech University for that specific DE semester. Why?
  - DE and incoming freshmen are two different student types so an application for each is required.
  - Course ID numbers for DE courses are different and attached to the semester they are offered so a separate application is required.
  - **Please note – continuing semesters of DE do NOT require new applications. Any break in enrollment in DE semesters DOES require a new application. For example – Fall to Spring or Spring to Fall = no new application. If a student skips a Spring or Fall semester, they will need to reapply. Summer is NOT counted as a ‘break in enrollment’**.

• **UPDATE APP FORM** - If you need to change information on your current application such as your address, phone, other contact information, etc., go to [www.tntech.edu/updateapp](http://www.tntech.edu/updateapp).

• **SELECTIVE SERVICE** - All U.S. males are required to register for Selective Service when they reach the age of 18. Tennessee Tech University cannot register male students for DE courses if they have not registered for Selective Service at the age of 18. Students can register and find more information at [https://www.sss.gov/](https://www.sss.gov/)

• **FERPA (FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT):** See [https://studentprivacy.ed.gov/faq/what-ferpa](https://studentprivacy.ed.gov/faq/what-ferpa). Once a student enters a post-secondary institution, regardless of age, a Student Information Release (Intent to Attend form in Step #4 below), must be filled out by the parent and student, designating which individuals, including parents, that we may give information to from the University. The student can designate any number of individuals in this form. Those not designated by the student will **not** receive information on the student regardless of relationship to the student, including parents.

### DUAL ENROLLMENT STEP-BY-STEP (ACTIVE LINKS BELOW):

**STEP #1: REVIEW THIS DOCUMENT FULLY PRIOR TO PROCEEDING.** If you jumped ahead to this section and did not read the prior information, it is highly likely you will miss critical information about admission, payment, forms, etc. that are required for the Dual Enrollment program. That may cost you money and/or time.
STEP #2: STUDENT REGISTERS FOR THE DE COURSE(S) AT THEIR HIGH SCHOOL. The student will enroll in their DE course(s) at their high school via coordination with their high school Counselor. Please note – the student can apply to Tennessee Tech University as a DE student BEFORE enrolling in the DE courses at their high school but it is recommended they enroll in the courses at their high school prior to applying.

- The high school counselor will provide Tennessee Tech University the class roster, showing which course(s) the students are registered for. This roster also serves as a “Letter of Recommendation” to Tennessee Tech University for each student.

- Tennessee Tech University will coordinate with the student’s high school Counselor to provide transcripts to the University DE representative.

STEP #3: APPLY TO TENNESSEE TECH UNIVERSITY. The student will apply to Tennessee Tech University online at www.tntech.edu/apply, selecting “Undergraduate” and then the semester desired, and then log-in as a “Returning” or “New user”. Keep in mind:
  - Use “Dual Enrollment” as the student type
  - Estimate start / end dates of prior DE courses and graduation date

- Once the application is submitted, the student/parent will need to pay the $25 application fee unless the student has applied before to Tennessee Tech University...it is a one-time fee. If a student has paid prior, just close out the payment screen and Tennessee Tech University will bring up the prior payment to the most recent application. If you submit the application and skip the payment, you can log back in at www.tntech.edu/status to pay the fee. Click ‘Summary’ of that application and the ‘Make a Payment’ is in the lower right.

- The student will need to request any prior college credit transcripts (dual enrollment or joint enrollment) from other colleges to be sent from the college directly to Tennessee Tech University – it cannot be sent or forwarded from the student. If the sending college needs an email, use transcripts@tntech.edu If the prior college will only send via snail mail, use ‘Office of Admissions, Tennessee Tech University, Campus Box 5006, Cookeville, TN 38505. Please note: A handy way to locate the transcript page for any college is to Google the name of the college and add “transcript request”. This will usually take you right to the ordering portal.

Once all required documents are received and processed, the student will receive a Dual Enrollment admission decision via email with the student’s Tech ID (a.k.a. T#) and also their Tech username. This may take a few days depending on the processing time. The Tech ID & username are critical to setting up their Tech Express (to access Tech email and Eagle Online – see express.tntech.edu).

Please note: As mentioned previously, if a Senior is doing dual enrollment AND applying to Tech for their freshmen college year, these are two separate applications as they have different requirements, different courses, different semesters, etc. It is advised the student review communications with this in mind as they will receive information about dual enrollment AND their freshmen admission over the course of their last year in high school.
The student can check their admission status at www.tntech.edu/status - they will need the username and password they created when they applied to log in.

**STEP #4: INTENT TO ATTEND FORM (CLICK HERE). THIS IS A TWO-PART FORM!** A parent starts and submits the form, which then goes via Docusign to the student’s email address for them to complete -- ensuring consent, promise to pay, and release of student information to designated individual(s) for federal FERPA requirements (student privacy). The Admissions office receives the document automatically.

**STEP #5: HEALTH FORM (CLICK HERE).** A parent of the student will complete the Tennessee State required Meningitis/Hepatitis B Immunization & Tuberculosis Screening health form online via Docusign. The student’s Tech ID / T# will be needed for the form. It will automatically go to Tennessee Tech Health Services once submitted. A student cannot be registered for a course unless the health form has been received. *Prior DE students who have submitted a previous health form do NOT need to do so again.*

Tennessee Tech University will then register the student for their chosen course(s) based upon the roster and information received from the high school -- the student does NOT register themselves for Dual Enrollment courses through Tech Express.

**POSSIBLE STEP #6: ILEARN:** If the DE course a student is taking is online through Tennessee Tech University, it will be done using Ilearn, which is accessed via the student’s Tech Express. Tech Express (express.tntech.edu) is set up using the student’s Tech ID / T# and Tech username. Once in Tech Express, Ilearn is accessed through the Ilearn icon. More information, tutorials, student resources, etc. for Ilearn are located on the Tech website of www.tntech.edu/ilearn/index.php

**YEARLY / SEMESTER PAYMENT & DISCOUNT OPTIONS**

**APPLY FOR THE TSAC GRANT (CLICK HERE).** Apply for the TSAC Dual Enrollment Grant. It is **NOT** income based and available to all Tennessee residents. The first five (5) Dual Enrollment courses will be fully funded at $179.55 per credit hour through the grant. Students without TSAC grant funding will pay the balance through their Tech Express account. Courses 6-10 can pull funds at $100 per credit hour no limit and with **NO IMPACT** on Tn HOPE scholarship funds.

**TN STATE EMPLOYMENT DISCOUNT (CLICK HERE).** If the parent is a teacher who works in the TN public school system, or an employee of Tennessee Tech University, a TBR institution, or any public college/university, the relevant discount form should be completed and emailed to financialaid@tntech.edu prior to the start of that semester. The form is required to verify continuing employment by the state. Please note the forms are turned in AFTER the dates listed below:

- Discount forms for the Fall semester can be submitted beginning July 15th.
- Discount forms for the Spring semester can be submitted beginning November 15th.
- If attending Summer semester, discount forms can be submitted beginning April 15th.
- The deadline to submit forms is the last business day of each term.
- Forms can be submitted in person, by email financialaid@tntech.edu, or by fax 931-372-6309 on or after the dates listed above. Failure to submit by these methods, may result in your discount not being applied by the deadline.

For questions about the discount form, reach out to financialaid@tntech.edu or 931-372-3073.
As always, we are happy to walk students, parents and high school counselors through the entire process. Reach out to us at any time through the contact information below.
