Addendum No. 1

May 18, 2026

Multiple Building Air Handler Replacements

Tennessee Technological University

Cookeville, Putnam County, Tennessee

SBC 364/011-06-2025

The following items take precedence over that previously specified for the referenced project.

Revisions and Clarifications to the Drawings or to the Project Manual:

1. As part of the controls upgrade portion of the work, the contractor shall provide and install new pump starters for the hot water and chilled water pumps in each building. This will help facilitate the integration of the pump control with the DDC system. Total number of starters to be provided is four (4): TJ Farr: 1 HW pump and 1 CHW pump, Henderson: 1 HW pump and 1 CHW pump.
2. Construction fencing will only be required if equipment is staged in a public area.

Addendum by:

Justin Newell, PE
