

Academic Integrity/Cheating

- **Respondus Tools**
 - **Lockdown Browser** is a customized browser that increases the security of test delivery.
 - **Respondus Monitor** builds on Lockdown Browser and uses a student's webcam and video analytics to prevent cheating via online proctoring.
 - [View more information about Respondus Lockdown Browser and Monitor](#)
- **Turnitin**
 - Turnitin offers plagiarism prevention, online grading, and peer review.
 - [View more information about Turnitin](#)
 - We highly recommend you watch the Turnitin videos on the information site to cover the options available.
 - **If you are not using iLearn**, you will have to [request a Turnitin.com account via the online form](#).
- **Tips**
 - Consider assessing students in different ways other than just quizzes (discussions, assignments, projects, video submissions, etc.)
 - When creating quizzes,
 - use the randomizing tools for questions and answers (where applicable)
 - use time limits
 - Consider using different types of questions, not just multiple choice. There are several that auto-grade and can test their knowledge.
 - Questions that auto-grade: multiple choice, multi-select, true/false, short answer, fill in the blank, matching and ordering.
