CENTER FOR INNOVATION IN TEACHING AND LEARNING

Faculty Excellence Awards

Dr. Mazen Hussein

Associate Professor
General & Basic Engineering

ONLINE TEACHING

Dr. Hussein has excelled in creating course content that inspires his students and has created an engaging online active learning environment. Through a quality course review, Dr. Hussein exceeded best practices in good course design and online education across all learning experiences, from course set-up to course implementation. He has demonstrated his ability to design and develop rich learning environments in an online setting.

Jeanne Schmitzer

Adjunct Faculty
History

COURSE DESIGN

Ms. Schmitzer was selected as this year's recipient of the Excellence in Course Design Award for her efforts and her ability to model and practice excellence in course design through incorporating innovative teaching practices, integrating relevant technology, and effectively creating opportunities for student engagement, under the evaluation of the Online Learning Consortium (OLC) Course Design Rubric.

CITL SUMMER INTENSIVE

Join us on May 16th and 17th from 8 AM - 12 PM in person or online for our Summer Intensive. This two day event will include interactive sessions, group discussions, and time to work directly with the CITL staff on your course.

CENTER FOR INNOVATION IN TEACHING AND LEARNING
