## Summer Workshop Series: Book Club

**Tuesdays: June 6 - August 8, 2023 at 11 am**

The CITL will kick off the Summer Series on Tuesday, June 6, 2023, as we begin reading Powerful Teaching: Unleash the Science of Learning by Dr. Pooja Agarwal and Patrice Bain. We will meet virtually on Tuesdays at 11 AM. Together, we will discover how to implement retrieval practice, spacing, interleaving, and feedback-driven metacognition into courses. Reading is NOT required to join in on the conversation, and all chapters are available online through the TnTech Library. If you need any assistance with online access to materials, please contact the CITL. Registration and more information available here.

## Leveraging AI: Summer Intensive Hot Takes

The CITL Summer Intensive focused on ways to leverage AI in the classroom. Here are a few important takeaways from the sessions:

- **Define** acceptable and unacceptable use of AI in education, establishing transparent boundaries for students.
- **Leverage** edtech tools like Turnitin and Respondus to enforce academic boundaries and ensure honesty during assessments.
- **Cultivate** a positive classroom culture that values learning.
- **Implement** strategies to change the educational culture, including the use of open-ended questions, frequent low-stakes assessments, and reflective opportunities for student self-review.
- Thoughtfully **design** tests and questions to reduce cognitive overload and foster analytical thinking.
- **Use** AI tools, such as ChatGPT, to refine questions and prompts, enhancing engagement and critical thinking.
- **Navigate** the AI revolution in education by embracing AI assistance potential, upholding the values of integrity, fostering a culture of honesty, and nurturing an environment conducive to genuine learning.
