

Online Learning Consortium (OLC)

Tennessee Tech is an institutional Online Learning Consortium (OLC) member. Our membership provides faculty with access to cutting-edge tools, research journals, expert guidance, professional development opportunities, and more. Additional offerings are available upon request. Best of all, our membership grants access to the OLC's Quality Scorecard, an excellent resource for aligning courses with the highest learning standards. This translates into a richer and more engaging learning experience that supports student and faculty success.

2024 OER Summer Institute

Join us for the 2024 OER Summer Institute, which will be held on Tennessee Tech's campus. Sessions will include information on the intersection of AI and OER, employing the TN Open Education Hub, maximizing student engagement with Open Education Pedagogy, and special coaching for Cycle 4 OER Grant teams. Registration is free, and breakfast and lunch are included.

[Please register by Monday, July 15th.](#)

FLIP

Flip features will be integrated into Microsoft Teams for Education to streamline educator workflows. Mobile apps and the website will be retired by **September 30th**. You can download your Flip videos and continue using Flip's core functionality within Teams allowing you to easily share video assignments and receive student responses.
