

CITL REPORT

Center for Innovation in Teaching and Learning

SEPTEMBER 2026

tntech.edu/citl | citl@tntech.edu | (931) 372-3675

Canvas Corner

If you have course content in iLearn/D2L that you plan to use for an upcoming Spring or Summer course, please submit a [Canvas Course Migration Request](#) by Friday, **September 4** so we can include it in this migration group.

There is no need to wait until your Spring or Summer course shell is available in Canvas to submit a request. If you know which iLearn/D2L course contains the content you will need, please submit your request now and we will take care of the migration process.

If you have already submitted a Spring 2027 or Summer 2027 migration request, or plan to use your Fall 2026 Canvas course, no additional action is needed.

Spring 2027 courses will receive priority as we finalize this group, followed by Summer 2027 courses, and any future semesters after that. Requests submitted after September 4 can still be supported by the CITL, but we encourage you to submit now so we can include as many courses as possible in the remaining K16 migration process.

Meet Our New Instructional Designers!

Mrs. Danyelle Hawkins

Mrs. Breanna Johnson

We are excited to welcome two instructional designers to our team. Danyelle Hawkins joins us from academic advising, bringing valuable insight into student needs and a strong commitment to designing learning experiences that put students first. Breanna Johnson returns to Tennessee Tech after working in K12 education, offering expertise in course design and instructional technology. Together, they bring a wealth of experience that will help support innovative, engaging, and student-centered teaching and learning.
