

# THE CITL REPORT

*A newsletter of pedagogy, technology, and current trends in instructional design*

## ILEARN SEMESTER WRAP-UP

Join us on December 7th for our final workshop of the semester. In this session, we will discuss the exact procedures for adding, deleting, and modifying content topics, quizzes, assignments, discussions, and other iLearn components. The process of copying, exporting, and importing entire courses and between semesters will be explained in detail. We will also include elaboration on the steps for selecting specific items to be copied as well as how to manage or offset start, end, and due dates.
