Assessments & Grading

TECH-DIRECT (Online) COURSES

Rubrics
- Rubrics are helpful tools for providing clear expectations and feedback on student work
- Consider utilizing the Rubric Tool in iLearn

Assessment
- There are a variety of methods for assessing students. Before selecting the method you are the most familiar with, consider alternative solutions that may be better suited for the online environment.

Academic Integrity
- Academic Integrity in the online classroom presents its own unique challenges. Effective course design can help prevent academic dishonesty through creating course content and assessments that suite the online environment and student success goals.
