

View Data using Qualtrics

Center for Innovation in Teaching and Learning

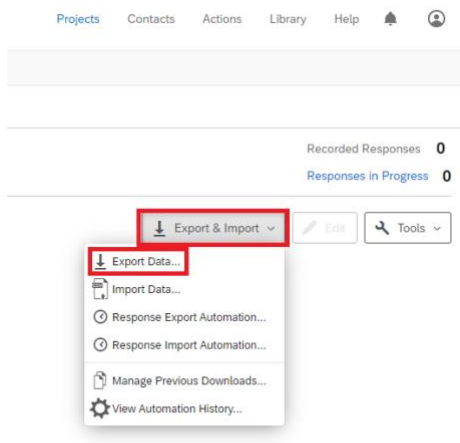

Qualtrics gives you the ability to export and analyze the data collected from your survey responses.

To Export Data:

1. On the Qualtrics homepage, click the three-dot menu located on the survey description bar, then select **Data & Analysis** from the drop-down menu.

2. On the Data & Analysis page, select **Export & Import** and then select **Export Data** from the drop-down menu.

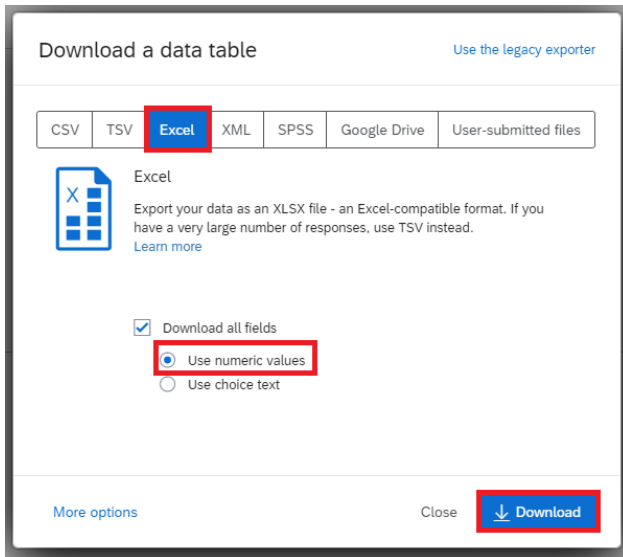

3. On the Download a data table window, select **Excel**.
4. Select **Use numeric values** and then click **Download**.

5. If the Download's status says *Queued*, select **Queued** to help the file download.

NOTE: You can hit close on the window and not lose your download progress. To access your downloads again, select **Export & Import**, then select **Manage Previous Downloads**.

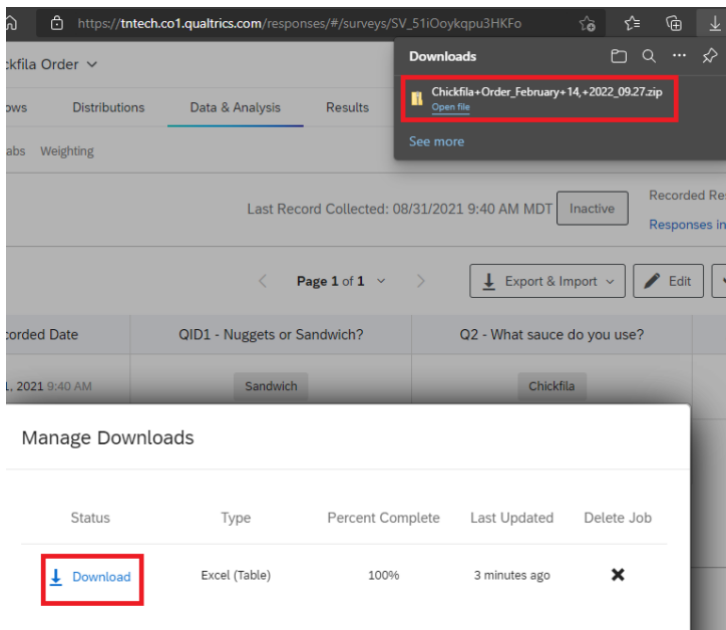

6. Previous downloads will then be displayed. Select **download** for the file to appear under downloads.
