Holistic Review Committee

Dr. Beason recognized Mr. McWilliams to share an update on the Holistic Review Committee. Mr. McWilliams informed the committee that currently there were 27 applicants for consideration. He discussed the challenges with the current process of using Slate by the members to review the data to decide whether the applicants are admissible or not. He shared that applicants are now required to confirm that their latest ACT scores and transcripts have been received by the Admissions Office. The committee members are not able to review the application information in Slate and place a vote to approve, deny or hold for discussion. He is considering moving to a dynamic form for easier voting and sending of reminders to members.

Such Other Items

Dr. Beason questioned the committee members whether Policy 1200 Undergraduate Admission Requirements should be modified. Currently, transfer applicants are required to have a 2.0 overall and a 2.0 in the last 12 hours. Discussion was held by the committee. The decision was made that the holistic review committee would review the policy and present to the full committee any changes that they perceive needs to be made to the policy.

Dr. Beason adjourned the meeting after confirming there were no additional matters to discuss.
