

How to Determine the Size of a Video File

Only videos less than **100 MB** successfully upload into Tk20.

On a Mac:

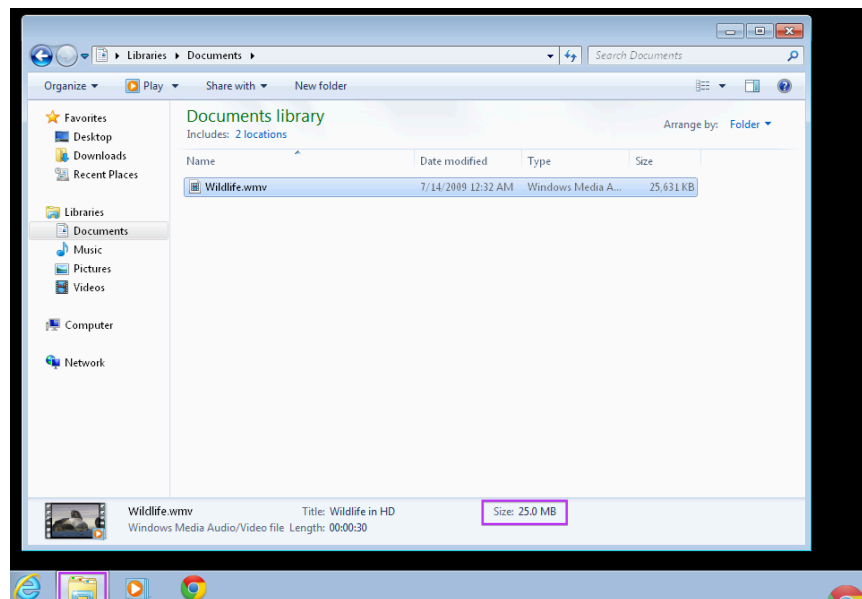

Click on and open Finder. 

- Click where you saved the video file. (Documents, Desktop, etc.)
- Click on the video file.
- Size is the third field down.

On a PC:

- Click on and open Windows Explorer. 

- Click where you saved the video file. (Documents, Desktop, etc.)
- Click on the video file.
- Size is listed on the bottom information bar.
