\_\_\_\_\_

(Attach a copy of the publication.)

A nominator may nominate only one candidate and a single paper by that candidate. Self-nominations will not be accepted. In the case of multiple authors, the nominator, in consultation with the authors, shall declare the principal author, contribution of each author and their role. Nominators should comment on the quality of the journal that has published the paper. The nominator should also clearly identify the impact of the research presented in the paper.
