College of Engineering Orientation Fair September 19th

The College of Engineering is hosting its annual Orientation Fair from 10AM – 1PM Thursday, September 19 in the University Center Multipurpose room. Hotdogs, chips, and drinks will be provided at no cost to visitors of the Fair. There will be students and faculty from the degree-granting departments in the College showing displays, along with additional booths representing various clubs, where visitors can learn more about what is available to them in the College of Engineering. There will also be support programs of interest, such as Co-op and Career Services, Military Science, Study Abroad, and others. Over 400 people attend each year, and it's an excellent opportunity to become better acquainted and more involved with the College of Engineering.

So everyone mark their calendars and don't forget to come join us!
