Professor Wayne Johnson, chair of the Department of Electrical and Computer Engineering Wins Lifetime Achievement Award

Dr. R. Wayne Johnson, professor and chair of the Department of Electrical and Computer Engineering at Tennessee Tech University, is the recipient of the 2015 International Microelectronics Assembly and Packaging Society lifetime achievement award for "exceptional, visible and sustained impact on the microelectronics packaging industry."

Founded in 1967, the IMAPS is the leading international microelectronics and assembly packaging society. It hosts a variety of technical workshops, conferences and professional development courses that enable these professionals to enhance their careers.

Johnson is a fellow of IMAPS and served as president in 1991. He also served as the general co-chair of the IMAPS High Temperature Electronics Conference held in New Mexico during the even years since 2004, and the IMAPS High Temperature Electronics Network Conference held in Oxford or Cambridge, United Kingdom, in odd years since 2009.

Professor Wayne Johnson, Chair of the Electrical & Computer Engineering department and Vova Markovich, Awards Chairman for IMAPS
