

Learn about ISO 50001 – the energy management standard for industry! Manufacturers are increasingly focused on improving their energy efficiency to save money on utility bills and become more sustainable. ISO 50001 provides a comprehensive framework for a plant to manage its energy usage. This 50 minute talk will touch on the basics of energy management with real world examples. **TODAY, 11:00 – 11:50 in BRWN 307.** Homemade sweets will be served! For more information contact Michelle Davis at mdavis@tntech.edu.

We'll be having a Water Professionals meeting **TODAY during dead hour in PRSC 330.** We'll be taking up membership forms for AWWA and WEF and talking about our student conference.

There will be an **ASCE** meeting **TODAY in Prescott 215 at Dead Hour.** Ryan Clark from the Army Corps of Engineers will be coming to speak. Don't forget to bring some extra cash to donate so you can see your favorite ASCE officer and CEE faculty member get pied in the face at the end of the semester! This will be the last meeting you will get the opportunity to do so. We will be pie-ing the winning officer and faculty member at our last meeting on November 28th. As always, pizza and drinks will be provided if you have paid your semester membership dues. If you haven't already paid your \$25 semester dues, be sure to do so soon.
