HEALTHCARE ADMINISTRATION AT TENNESSEE TECH

As health care issues become more complex due to changes in health care policy, and a rapidly aging population, the Master of Professional Studies program with a concentration in Healthcare Administration will effectively prepare students for careers as leaders in the health care industry. TTU graduates will positively influence the direction of health care facilities using ethical decision-making, data analysis, and a deep understanding of the health care system as it exists in the United States.

The Healthcare Administration M.P.S. uses an interdisciplinary approach of study designed to provide professionals with leadership and strategic management tools to lead and serve in one of the nation's largest service industries. The program's focus is to provide professionals with the opportunity to develop important skills in health care, leadership, finance, informatics, research and administration in the various components of health care delivery systems that include hospitals, nursing homes, group medical practices, personal care homes, retirement centers, health maintenance organizations, medical sales and insurance companies.

The Healthcare Administration M.P.S. degree program offers courses in a variety of ways — online, on campus and hybrid — to provide flexibility and best serve the needs of busy professionals.

For more information on the Healthcare Administration M.P.S. program, please contact the College of Graduate Studies at 931-372-3233 or gradstudies@tntech.edu.
