

NURSING

You can earn your master's in nursing from an established, fully accredited university in the most flexible way possible - online and with a choice of preceptors to complete your necessary clinical experiences.

MSN program at Tennessee Tech

Tennessee Technological
University's Whitson-Hester
School of Nursing collaborates
with the five other Tennessee
Board of Regents universities to
offer an online Master of Science
in Nursing through the Regent's
Online Degree Program. With
TTU as your home school, you'll
be able to further your career
opportunities and specialize in
one of four concentrations.

With all coursework taken online you'll have a convenient yet challenging way to further their education while continuing to work – and with enough flexibility to accommodate your personal schedule.

TTU's Nursing graduate program will help you learn how to educate the next generation of nurses, influence the quality of patient care, and gain autonomy in your professional life. Upon program completion, you will be equipped to pursue higher-responsibility and administrative nursing positions or even take your graduate studies further.

The MSN-RODP program is accredited by the Accreditation Commission for Education in Nursing (ACEN), formerly the National League for Nursing Accrediting Commission (NLNAC).

Course Attendance and Completion

No on-campus courses are required to complete your MSN degree through TTU. Core and Specialty requirements for each concentration are completed online. Clinical, practicum, and internship hours are completed through contracts with a number of clinical and preceptor sites available throughout the region – and in addition to our existing contracts we can also complete new contracts for students who are interested in a site that has not been previously approved.

Concentrations

- Nursing Education
- Nursing Administration
- Family Nurse Practitioner
- Nursing Informatics
- RN-MSN (requires Bachelors in non-Nursing major)
- Post-Master Certificates (available for each concentration)

Faculty

The MSN-Regent's Online Degree Program draws from the best faculty statewide in order to provide you expertise in every area of coursework. Clinical preceptorship experiences may be completed at sites in your own community – combining the convenience of online coursework with the on-the-ground experience that is most relevant to you.

Program Cost

- In-state Online Tuition + Online Course Fee (cost per credit hour): \$540
- e-Rate for Non-Residents
 Online Tuition + Online Course
 Fee (cost per credit hour:
 \$746

Tuition and fees for the 2014-2015 school year, per credit hour.

Graduate Assistantships

A limited number of teaching assistantships may be available. These include paid tuition and fees along with a monthly stipend in while you gain experience teaching undergraduates. Teaching assistants' responsibilities include but are not limited to assisting faculty with grading, lab instruction, and providing student help sessions.

How to Get Started

Individuals interested in the Master of Science in nursing program can obtain additional information at the program's website or by emailing nursing@tntech.edu.
