(**Faculty:** please also include specific expectations for documentation, research sources, methodology, and other indicators of the project's appropriateness for upper-level Honors credit in your field.)

C. If the student is working as part of a team, explain their role in relation to the team. For example, if the student is serving as a team leader or liaison, what are their responsibilities? If not serving as team leader or liaison, how will the student's individual contribution exceed regular team member expectations?
