

Institutional Effectiveness 2023-2024

Program: Professional Studies BS

College and Department: College of Interdisciplinary Studies, Professional Studies Program

Contact: Dr. Dennis Tennant

Mission:

The Professional Studies Program is committed to serving and providing traditional and non-traditional students with an intellectually engaging and effective undergraduate, educational experience utilizing technology through online delivery systems as they enhance their knowledge, analytical abilities, critical thinking, and communication skills for upward mobility in their professional field.

This online undergraduate degree consists of 120 hours of interdisciplinary course work through TTU and TN eCampus and is available in four concentrations:

- Health Administration prepares students interested in entering the health care field in an administrative capacity planning, coordinating, and supervising the processes of medical facilities/offices.
- Information Technology is designed to prepare managers and non-managers to use information for decision-making as well as improve proficiency in software, operating systems, and management of networking systems.
- International Organizational Leadership prepares students to lead in a global economy spanning differing management styles, business practices, and cultural awareness.
- Organizational Leadership develops a student's foundation of leadership skills through a variety of communication outlets, critical thinking and problem-solving situations applicable in real-world businesses and organizations.

SLO1: Critical Thinking Skills

Define Outcome:

Professional Studies majors will demonstrate critical thinking skills, as measurable through the Senior Exit Exam.

Assessment Methods:

Senior Exit Exam: The Senior Exit Exam is administered to every student who graduates from TTU, with the exception of non-traditional students. This assessment evaluates students in the area of critical thinking. Scores are aggregated by major and reported annually. The California

Critical Thinking Test is a well-tested measure of critical thinking and is accepted by the University as a whole. (It must be noted that the exception of Non-traditional student scores is a university policy and not one of the SOPS. The exemption leads to the exclusion of many of our majors from the data. It's our goal to work toward the inclusion of all SOPS students.)

The School of Professional Studies uses the Senior Exit Exam to evaluate majors in Critical Thinking. The goal is to have an increasing score in the Exam annually, and to meet or exceed the university average score.

Results are distributed to the Dean of the College and discussed among faculty and School Directors.

Criteria for Success (Thresholds for Assessment Methods):

Threshold: Equal to the CCTST National Norm

Goal: Equal to the Tennessee Tech University institutional average

Link to 'Tech Tomorrow' Strategic Plan:

Results and Analysis:

	2020-21	2021-22	2022-23	2023-24
PRST	73.3	73.1	72.1	75.4
TNTech	74.5	75.2	74.3	74.4
National Norm	74.0	73.3	73.3	72.8

The PRST program met both the threshold and goal by performing above the TN Tech average and the CCTST national norm.

Use of Results to Improve Outcomes:

What actions occurred in the last couple of years that could have improved these results?

SLO2: Synthesis of Knowledge

Define Outcome:

Students will successfully demonstrate the synthesis of knowledge from their program of study with a focus from their concentration area in a Culminating Project during their senior year.

Assessment Methods:

BPS Professional Culminating Project: The Senior Culminating Project or Capstone course is required of all Professional Studies majors. Each student must complete either a 6000-word research paper or a real-world project that demonstrates a synthesis of knowledge from their program of study from their concentration area.

Faculty members complete the rubric on each student that completes the course, entering a score based on the rubric. The scores are combined to get an overall score for each semester's cohort of students.

Two areas of the rubric assess this outcome:

1. Information Seeking, Selecting, and Evaluating
2. Synthesis

Criteria for Success (Thresholds for Assessment Methods):

Data from the rubric is used to assess overall preparedness for the senior project, and student development in research question development, analysis, integration and synthesis of concentration areas, documentation, and critical thinking. Data is also used in program evaluation to assess areas of needed improvement. A score of 2.5 is adequate, 3.0 is considered acceptable, 3.5 advanced, and 4.0 stellar.

Link to 'Tech Tomorrow' Strategic Plan:

Results and Analysis:

Area	Fall 2020	Spring 2021	Fall 2021	Spring 2022	Fall 2022	Spring 2023	Fall 2023	Spring 2024
Thesis/Problem Question	3.37	3.74	3.62	3.58	3.71	3.57		
Analysis	3.29	3.42	3.38	3.24	3.23	3.25		
Documentation	3.14	3.17			3.25	3.12		
Product Process	3.27	3.27			3.34	3.23		

Data from the rubric is used to assess overall preparedness for the senior project, and student development in research question development, analysis, integration and synthesis of concentration areas, documentation, and critical thinking. Data is also used in program evaluation to assess areas of needed improvement. A score of 2.5 is adequate, 3.0 is considered acceptable, 3.5 advanced, and 4.0 stellar.

Use of Results to Improve Outcomes:

Ask Dr. Tennent what actions can be done to improve the actions-look at rubrics

SLO3: Problem-Solving and Communication

Define Outcome:

Professional Studies majors will demonstrate real-world problem solving and communication by identifying and developing a research project in his/her concentration area.

Assessment Methods:

BPS Professional Culminating Project: The Senior Culminating Project or Capstone course is required of all Professional Studies majors. Each student must complete either a 6000-word research paper or a real-world project that demonstrates a synthesis of knowledge from their program of study from their concentration area.

Faculty members complete the rubric on each student that completes the course, entering a score based on the rubric. The scores are combined to get an overall score for each semester's cohort of students.

Five areas of the rubric assess this outcome:

1. Thesis/Problem Question
2. Analysis
3. Documentation
4. Product Process
5. Critical Thinking

Criteria for Success (Thresholds for Assessment Methods):

Data from the rubric is used to assess overall preparedness for the senior project, and student development in research question development, analysis, integration and synthesis of concentration areas, documentation, and critical thinking. Data is also used in program evaluation to assess areas of needed improvement. A score of 2.5 is adequate, 3.0 is considered acceptable, 3.5 advanced, and 4.0 stellar.

Link to 'Tech Tomorrow' Strategic Plan:

Results and Analysis:

Area	Fall 2020	Spring 2021	Fall 2021	Spring 2022	Fall 2022	Spring 2023	Fall 2023	Spring 2024
Thesis/Problem Question	3.37	3.74	3.62	3.58	3.71	3.57		
Analysis	3.29	3.42	3.38	3.24	3.23	3.25		
Documentation	3.14	3.17			3.25	3.12		
Product Process	3.27	3.27			3.34	3.23		

Data from the rubric is used to assess overall preparedness for the senior project, and student development in research question development, analysis, integration and synthesis of concentration areas, documentation, and critical thinking. Data is also used in program evaluation to assess areas of needed improvement. A score of 2.5 is adequate, 3.0 is considered acceptable, 3.5 advanced, and 4.0 stellar.

Use of Results to Improve Outcomes:

The addition of two new faculty members in Fall 2023 has provided an opportunity to better introduce Professional Studies majors to the concept of integrated research. The instructors will focus on research, intersections between traditional content areas, writing skills, and integrating academic content from diverse academic areas with a target goal of 3.0 (acceptable score) in Thesis/Problem Question, Analysis, Documentation, and Product Process.
