

Institutional Effectiveness Report 2018-19

Program: Fine Arts BFA

College and Department: College of Fine Arts - School of Art Craft and Design

Contact: Kimberly Winkle

Mission: The mission of the School of Art, Craft & Design is to prepare BFA majors for careers in visual art studios, design practice and art education. More broadly, the SAC&D seeks to enable students to discover creative potential, to learn skills design processes, to acquire cultural knowledge, and to develop critical faculties through visual art experiences. The SAC&D also seeks to instill an appreciation of visual arts in all University students, and to broaden the cultural perspective of the community, state, and region. A unique facet of Tennessee Tech is the School of Art, Craft & Design's satellite campus, the Appalachian Center for Craft, which is dedicated to promoting excellence in American craft by providing access to the highest quality professional education in studio crafts, and presenting diverse craft artists, works and events in a community arts context. The ACC's primary function is in support of the BFA degree program as stated in the undergraduate course catalog.

The Bachelor of Fine Art degree is the initial professional degree in art. The School of Art, Craft & Design has developed the degree in accordance with the guidelines established by the National Association of Schools of Art and Design.

Program Goals:

PG 1: Increase SAC&D marketing and promotion efforts to increase visibility to support increased enrollment; visibility should be in form of: exhibition, craft fair participation, print materials, mailings, social media presence and monthly e-newsletter distribution.

PG 2: To provide support for faculty research, travel and professional development.

Student Learning Outcomes

SLO 1: Students will have broad understanding of art movements, artists and historical context to deepen understanding. This knowledge informs individual student creative practice and art making. This knowledge is primarily gained through successful completion of Art History courses and performance is measured via final semester grades and mid-semester exams.

SLO 2: Students will be familiar with non-Western art forms, which provides them with greater sources of inspiration and understanding of the various purposes of, perspectives and motivation for creating art. This knowledge is gained and measured via exam in required. Art History courses.

SLO 3: Students will comprehensively develop as an artist with a competent understanding of process, concept, professional practice, context and problem solving; measured through successful completion of the BFA degree.

SLO 4: Students will understand the conceptual framework which inspires their artwork and be able to cogently describe and defend it. Measured qualitatively in project critiques.

SLO 5: Students will gain experience and knowledge of the process of mounting a solo exhibition. Measured through successful completion of the senior thesis process. Threshold of acceptance is 70%.

SLO 6: Graduates will be able to embark and sustain professional careers as practitioners of the arts or arts education. Measured through ongoing contact with alumni and: successful completion of Art Education EdTPA and Praxis (art education majors) and successful completion of Design Portfolio (design majors) and successful completion of Professional Practices of the Artist (studio majors) helps prepare students for a meaningful career in the arts. Threshold of acceptance for the latter three are 70% and state requirements for EdTPA and Praxis.

Assessment Methods:

PG 1: Increase SAC&D marketing and promotion efforts

PG 2: Support faculty professional development

SLO 1: Broad understanding of art movements, artists and historical context

- *Art History Grades*

The art history courses, including the general education Introduction to Art, are firmly entrenched within the historical context. Art movements and styles, artists' biographies, and the analysis of specific works of art are always considered within the socioeconomic, religious, political, and demographic context of a particular historical moment. Engaging the larger historical context while learning about works of art leads students to understand the deeper significance that art has always played in every facet of society. Students demonstrate their comprehension of these concepts through a variety of written and creative assignments and exams. A final grade of 'C' in these courses indicates the student adequately participated and demonstrated understanding, while a 'B' shows a higher level of effort and quality of work. 'A' grades demonstrate the student was engaged, enthusiastic, and performing at the highest level.

SLO 2: Familiar with non-Western art forms

- *Art History Exam*

Non-Western art forms are readily incorporated into the art history curriculum. All courses are designed with a global perspective to broaden students' awareness of artists and styles from beyond the European canon. In particular, exams in art history courses include multiple-choice questions testing the students' comprehension of these subjects. Additionally, a deeper level of understanding is tested through essay questions in which students must answer "big picture" questions that require them to explain the historical contexts (political, religious, socioeconomic, etc.) affecting art movements and artists in Africa, China, Japan, India, the Middle East, and Pre-Columbian Americas. These exams and other assessments quantify student comprehension along the following scale: grade of 'C' indicates the student adequately participated and demonstrated understanding, while a 'B' shows a higher level of effort and quality of work. 'A' grades demonstrate the student was engaged, enthusiastic, and performing at the highest level.

SLO 3: Comprehensively develop as an artist

- *Sophomore Assessment:*

Students in a BFA studio concentration with approximately 45 - 60 earned hours are screened for appropriate progress in art foundations classes, general education classes, and classes in the concentration studio. Studio concentration faculty, who also assist in advising, assess whether the level of accomplishment (the quality of the artwork) in at least two classes in the concentration is sufficient to support a recommendation to continue in upper division work in that studio, consistent with the NASAD content and competency standards noted for all professional baccalaureate degrees in art and design.

Regarding the sophomore assessment, conscientious and competent performance in beginning studio classes may produce grades of C or better, and yet not indicate the potential to be competitive in a studio career. Although our sophomore assessment process is less severe, it is intended to serve a similar predictive function to pre-admission portfolio reviews. This process has encouraged students to change concentrations and even to change majors. This recommendation is denied in a small proportion of cases, and the process has been conceived as an enhancement of advising on an individual basis. If a denial of the recommendation to advance leads a student to a more productive major, it is deemed a successful outcome. However, since Spring 2012 the results of these assessments are being tabulated, to see if trends emerge that are useful for program assessment. Based on faculty discussions, the option to record three responses by the faculty advisor, "Recommended," "Not Recommended" and "Defer," are included in the sophomore assessments. The "Defer" response was added to the original assessment to accommodate situations that arise in cases of transfer students, changes of concentration, and other extenuating circumstances. Spring 2019 results will be updated during fall 2019, after faculty advisors have had the opportunity to assess portfolios and meet with eligible advisees who were identified subsequent to the completion of spring 2019 coursework.

Results are included at the end of the report. Attached is example of the sophomore assessment form.

SLO 4: Understand the conceptual framework of their artwork

- *Senior Thesis:*

The senior thesis process requires the student to propose and develop a one-person exhibition and a portfolio of stylistically unified, technically accomplished work, and to define and defend its conceptual premise(s) to a committee of faculty and sometimes invited professional artists. This process generally involves two six-credit courses completed over two consecutive semesters. The level of accomplishment will be consistent with the NASAD content and competency standards noted for specific baccalaureate degrees in art or design. Students must earn a grade of "C" or better to meet the threshold of acceptability.

The senior thesis process models important professional expectations that studio artists typically experience. In this process, occasionally a student may fail to produce enough

work, or work of sufficient quality, and will not receive the minimum grade of "C" in a senior thesis course. However, in a more frequent minority of cases, a student may experience a breakthrough that prompts a change of direction in the work, or encounter an unforeseen technical or aesthetic roadblock that requires more time to resolve, even though the quantity and quality of work is sufficient for a passing grade. The student may be advised by the committee and choose the opportunity to extend the project an extra semester. The senior thesis process is intended to fulfill the professional requirement that an emerging professional artist can present a body of work that projects a clear level of aesthetic and technical resolution. The resulting portfolio will be the basis of judgment for galleries, exhibitions, professional art fairs, graduate school admission, etc. The data that have been collected over the years for the BFA program exist in the form of photographic portfolios and artists statements recording each senior thesis project. A group of qualified art faculty, curators or art dealers can review these portfolios and assess the program relative to other college programs or professional standards relevant to a given art venue, such as graduate school entrance, juried art shows or gallery representation. During evaluator visits from the National Association of Schools of Art and Design, five years of senior thesis portfolios are presented for review along with student transcripts to monitor adherence to NASAD standards, competencies and expectations.

SLO 5: Process of mounting a solo exhibition

- *Senior Thesis:*

SLO 6: Embark and sustain professional careers

- *Praxis II Exam:*

Praxis II Exam - BFA students in the Art Education concentration take the Art: Content and Analysis as monitored by the College of Education Office of Teacher Education, as a requirement prior entering Residency I and Residency II as a teacher licensure candidate.

Annual results are provided at the end of this report. The threshold of acceptability is defined by the State of TN.

- *Alumni Surveys:*

Alumni Surveys - Ongoing contact and feedback from BFA alumni has made it evident that a reliable School of Art, Craft & Design alumni survey will provide better data to assess student learning outcome 6 adequately. The departmental staff has recently completed a comprehensive update of alumni contact information. An appropriate means of providing a departmental alumni survey process was reviewed by the art faculty subcommittee on assessment during the 2014-2015 academic year but the survey has not yet been administered. The unit needs to discuss and determine plans for implementing the survey.

Results:

PG 1: Increase SAC&D marketing and promotion efforts

We've continued to make significant progress in this area and we strive to continue to broaden our reach, define our target audience and refine ways in which we can reach them.

- 1 new poster creation and mailing. Poster targeted high school students and was mailed to approximately 400 TN high schools.
- Participation for a second year in national craft exposition: American Craft Council Exposition in Atlanta, GA, March 2019. Participation in national Sculpture, Objects, Functional, Art (SOFA) Exposition in Chicago, Nov. 2019.
- New social media accounts: Facebook 290 followers [School of Art, Craft & Design Facebook page](#), Instagram 1080 followers [School of Art, Craft & Design Instagram page](#). We've added additional Instagram pages in the following studios: Ceramics, Fibers, Art Education, Painting
- New monthly e-newsletter: 291 monthly subscribers.
- Participation in numerous regional, national and international exhibitions by faculty.
- Participation in partnership programs with other Craft schools to allow our students to complete workshops at their institutions thus helping us spread the word about our academic program. 1 student at Penland School of Crafts, 2 students at Arrowmont School of Arts and Crafts.

PG 2: Support faculty professional development

The following faculty travel was supported in full or partially by the School of Art, Craft & Design

- Assistant Professor Dr. Jeremy Blair: 3 conference presentations, 2 class field trips
- Assistant Professor David Gallop: 1 conference presentation
- Associate Professor Kimberly Winkle: 1 conference presentation, 1 conference attendance, 1 class field trip
- Assistant Professor Perry Johnson: 1 workshop completion, 1 class field trip
- Assistant Rena Wood: 2 class field trips, 1 exhibition

Modifications for Improvement

PG 1: Increase Marketing and Promotion Increase SAC&D marketing and promotion efforts

We seek to add a new degree offering to augment our pre-existing professional BFA Degree. The new degree program will provide significant curricular flexibility, opportunity to complete a suite of varied courses to better support career and creative interests of our students and better serve a growing population of transfer and diverse students, such as non-traditional and/or veteran students, ultimately having positive effect on enrollment, recruitment and retention within the School of Art, Craft & Design.

The degree proposal is in the early stages of the approval process at this time. The Letter of Notification has been submitted internally.

SLO 6: Embark and sustain professional careers

Praxis specific activities are embedded into art education courses, especially ARED 2020 and ART 3205. Starting 2017 - 2018, it was observed that art ed students were weak in art history, responding to art, and writing/talking about their own art and practice. Course revision will take place to better prepare Art Ed students for the Praxis exam.
