

FAMILY WEEKEND CAMPUS SCAVENGER HUNT

Rules:

1. **Be a Team.** Your team must stay together at all times; do not split up to complete tasks!
2. **Play Fair.** Have fun and try to win, but do not let your competitive instincts drive you to do something you usually would not do. This means no sabotaging, cheating, or stealing other people's work.
3. **Complete all Tasks.** In order to be eligible for prizes, you must complete all tasks. If you do not complete all tasks, you will not be eligible for the prizes.
4. **Submit Your Entries!** You can either email all of your entries to us (in one email) at nsfp@tntech.edu, or direct message them to us on Instagram (@tntech_nsf). Entries are due by 11:59pm on Sunday, February 21st.
 - All fully completed entries will be entered into a drawing. The winner will be selected at random and will win some great Tech swag!
5. **HAVE FUN!** This is designed to show you what campus and Cookeville has to offer. Make the best of it!

Find:

- Tennessee Tech's next largest project will be new 100,00 square-foot facility to add onto the college of Engineering. Find where the new building will be and take a selfie standing "in" it!
- Cookeville and the Upper Cumberland are home to over half a dozen state parks, full of walking trails and waterfalls. Find Tech's rendition of the 8th largest waterfall in Tennessee, right here on campus!
- Every 15 minutes you can hear instrumentals from classic movies, such as Footloose, today's top artists like Taylor Swift, classic holiday tunes, and our alma mater played across campus. The carillon bells are what bless us with these sweet sounds. Locate where they are playing from and take a group picture of your family pointing to them.
- In 1915, Tennessee Tech celebrated the 100th anniversary of the University's founding. We have come so far and grown so much in the last century. To honor that the university erected the Ascension sculpture. Locate this sculpture and take a group picture in front of it!
- Tennessee Tech's newest development is the Laboratory Science Commons building, and due to its size, it's not hard to miss! The building's grand opening is scheduled for April 9, 2021, but students are currently occupying it for their laboratory courses. Locate the Organic Chemistry lab in room 3208 and take a picture outside of it! **if the building is locked, you may take a photo outside of the building*
- Cookeville is not only known for its nature scene, but also its food scene. With over 60 local places to dine, there is always an opportunity to support a small business. Take a group selfie outside your favorite local, only-in-Cookeville, eatery.
- The historic WestSide of Cookeville is home to a number of murals. Find your favorite and take a group picture in front of it.
- The age-old debate of who has the best donuts in town has Cookeville divided! Try both Big O's and Ralph's Donuts for yourself, and take a picture with your favorite!
