Spring 2021	The Office of the Provost established a working group of Department Chairs to explore the Faculty Annual Evaluations process. The group sent out a campus-wide survey to faculty.	The Office of Research established a working group to explore adoption of a Scholarly Works Digital Database. The group brainstormed about possible uses of a system.
Summer 2021	Review of survey feedback and discussions within working group.	Viewed demos of Scholarly Works Digital Database options. The working group continued discussions about possible uses of a system.
Fall 2021	Review of survey feedback and continued discussions within working group.	Selection of Watermark (formerly known as Digital Measures) as a holistic faculty reporting digital database for Tennessee Tech.
Spring/Summer/Fall 2022	Conducted interviews and discussions of stakeholders - Department Chairs, Dean's Council, Faculty Senate (full group plus smaller groups) & individual departments.	Watermark Early Adopter Implementation Group Established. Oversight of implementation transitioned to Academic Affairs.
Fall 2022	Recommendations provided, along with prototypes of new evaluation documents. Distributed to stakeholders for input - Department Chairs, Dean's Council, Faculty Senate (full group plus smaller groups) & individual departments plus Academic Council.	Watermark Early Adopter Group began testing faculty activity screen and annual activity report.
January 2023	Goal-setting workshop, in coordination with the CITL, held for Chairs/School Directors. Faculty submitted their department's typical Annual Activity Report, as in previous years, plus the new Academic Goals Planning (AGP) document.	Early Adopter Group completed input of all activities for 2022-2023 and created an Annual Activity Report within Watermark.
February to May 2023	Reflection and discussion on AGP timeline for completion for the upcoming year. Review of recommended documents to determine how	ITS/IARE/Provost Office/CAFE collaboration on Banner integration with Watermark.
