Create a Smart form without Copying Supplier Details from a Previous Request

- This enhancement improves efficiency for requesters who create multiple smart form requests.
 - o You can select **Create another request with the same supplier** to create a new request with the same supplier information that was entered. This helps when you need to create multiple requests for the same supplier without entering the details again.
 - o You can select Create another request to create a new request without retaining supplier information. This helps when you need to create a request for a different supplier.
