

Find Grants

If you are looking for funding opportunities to support your next projects, you can use GrantForward in different ways to quickly search for matching grants. In this document, we will go through different approaches to searching for grants and how you can navigate the search results in the platform.

Find more GrantForward support materials, including those referenced here, as well as Guides, Administrator Tools, Tutorials, UseCases, and Webinars at GrantForward.com/support.

Table of Contents

1. Find Grants

- 1.1. Find Grants with Advanced Keywords and Filters
- 1.2. Find Grants with AI Query Assistant
- 1.3. Find Grants by Researchers and Departments (only for Master Administrator account)

2. Navigate Search Results

- 2.1. Scan Your Search Results
- 2.2. Check a Specific Result

1. Find Grants

1.1. Find Grants with Advanced Keywords and Filters

If you already have some ideas about the topic and a set of keywords to look for grants, you can use our Advanced Keyword Search and then utilize multiple filters to narrow your search easily.

- Go to the [Search Grant Opportunities](#) page under the **Grants** tab.
- Fill in your research interests in the search boxes.
 - All of the Keywords/Phrases: Opportunities must contain all of these search terms.
 - Any of the Keywords/Phrases: Opportunities need to include one or more of these search terms.
 - None of the Keywords/Phrases: Opportunities that contain these search terms will be excluded from the search results.

Tips:

- Use the space or comma to separate terms, and double quote marks to search for the whole phrase.
- Our system will use AI to automatically generate relevant keywords and phrases relevant to your input. You just need to click on any suggested keywords/phrases to add them to your search.

Grant Search

All of the Keywords/Phrases

E.g: information "data science" "data integration"

Any of the Keywords/Phrases

biology

biological materials

biological processes

biological synthesis

biological activity

model organisms

biological components

health sciences

natural sciences

biochemistry

biosystems engineering

None of the Keywords/Phrases

chemistry

Click on suggested keywords to add to your search

- Press **Enter** or click on the **Search** button to execute the search.
- For more complicated search, you can click on **More Operators** under the search boxes to use **Boolean Operators (AND, OR)**, **Exact Phrase Searching (" ")**, **Parentheses ()**, **Field-Specific Operators (field:)**, **Include (+)**, and **Exclude (-)**. For example:
 - -STEM returns opportunities that do not have the word STEM.
 - biology AND (AI "machine learning") - returns opportunities that must have the word **biology** and **AI**, or **biology** with the exact phrase **machine learning**.
 - description:(chemistry) - returns opportunities that have **chemistry** in the grant description.

- Once you have finished choosing your keywords, you can use all filters listed on the left panel (**Sponsors**, **Deadline**, **Amount**, **Sponsor Types**, **Grant Types**, etc.) to help narrow down your search results. You may refer to the document [What Advanced Search Filters Can I Use for Searching Grants?](#) on how to use advanced search filters.

1.2. Find Grants with AI Query Assistant

You can easily start searching for grants on GrantForward by conversing with our AI assistant.

- Go to the [Search Grant Opportunities](#) page under the **Grants** tab.
- Choose **AI Query Assistant** and select any of the query presets to start your search. Click on the next prompts from the AI’s answers to help you navigate the chat more efficiently as you continue to make requests for the AI assistant.

Recommendation

AI Query Assistant beta

Hello and welcome to GrantForward. Can you tell me about the funding opportunities you are looking for?

4:28 am

Grants about a topic...

Grants for a researcher/department...

Grants for a project...

some query presets to start your search

Submit

- As you give the search request and the AI assistant answers, the search conditions (including keywords and filters) will also change accordingly. The filters can be further customized manually, which offers flexibility for your search.
- Besides using the presets, you can also freely enter your conditions in the chat box to find specific funding opportunities with the assistant.

1.3. Find Grants by Researchers and Departments (only for Master Administrator account)

If your account permission is Master Administrator, you can quickly search for grants for any specific researchers or departments on GrantForward.

- Go to the [Search Grant Opportunities](#) page under the **Grants** tab.
- Choose **Recommendation**, as a default, the system will show grants that are targeted specifically to your research interests.

- Click on the **Change** button, and choose the researcher or department you want to find grants for. Each option will have a drop-down menu for you to choose from.

- Click **Submit**, and the system will show interest keywords associated with the chosen researcher/department, and funding opportunities that match these keywords.

2. Navigate Search Results

2.1. Scan Your Search Results

- Click on the **View Options** button to choose the search layout and customize the information you want to show for a grant.
