

A Message from Our President

Hey! I am Bailey Talent, a Biochemistry major with a minor in Biology and a pre-dental concentration.

I am happy to serve as the 2022-2023 President of the College of Arts and Sciences Ambassadors. My time with the CAS Ambassadors started the summer of my junior year and I have enjoyed every minute. The CAS Ambassadors are not the only club and organization I am active in. I am the fundraising chair for the Student Members of the American Chemical Society and I am a member of the Upper Cumberland Community Host Group for Remote Area Medical.

What does being an ambassador mean to me? Being an ambassador allows me to represent the College of Arts and Sciences in several ways. I've had the privilege of speaking with alumni and showing them around campus! Also, I've gotten to encourage prospective students to come to TTU! Not only do the ambassadors represent the college around tech campus, I've also gotten to represent the college in our community.

The ambassador program has allowed me to sharpen my leadership skills and to make life-long connections. Looking back on my 2 years as an ambassador, I can say that my position as an ambassador is one of my favorite experiences. I am very proud to put on the purple polo!
