

A Message from Our President

Sierra G. Alexander

Hi everyone! I am Sierra Alexander, a Geoscience major concentrating in Geographic Information Systems (GIS).

I am honored to serve as the President of the College of Arts & Sciences for the 2023-2024 school year. My journey with the Ambassadors started my sophomore year. I was the Vice President last year and I have been a member of the Community committee.

I am also a member of the Geo Club, Sigma Gamma Epsilon Vice President, Presbyterian Student Association, and Army ROTC.

What does being an Ambassador mean to me?

The Ambassadors gave me an opportunity to really enjoy college after COVID-19. It was a way for me to get involved in campus life when no one really could. Opportunities for Ambassadors are endless, so take advantage of opportunities given!

My message to prospective students, Freshmen, prospective Ambassadors, and my fellow Ambassadors is to radiate _____. You pick the blank space. Radiate positivity, knowledge, compassion, and so forth. The decision is up to, but think about what you radiate to the world take advantage of the opportunities you have to radiate something amazing into the world!
