# A Message from our President

## *Daniel Hines*

---

My name is Daniel Hines, and I am honored to serve as the President for the College of Arts and Sciences Student Ambassadors for the 2020-2021 academic year.

I am a senior this year with plans to graduate in May with my degree in Cellular and Molecular Biology, and I am currently starting my MBA at Tech as well. After graduation I will be applying to medical school with hopes to start with an incoming class in the fall of 2022.

I have been an ambassador for the college for two years now, and have loved getting the opportunity to interact with the department faculty, as well as current and incoming students.
